## Gray Reports Operating Results For the Three Month Period Ended March 31, 2014

Atlanta, Georgia – May 8, 2014... Gray Television, Inc. ("Gray," "we," "us" or "our") (NYSE: GTN) today announced results from operations for the three month period ended March 31, 2014 ("first quarter of 2014"), including increased revenues, net income and broadcast cash flows (a non-GAAP measure) as compared to the three month period ended March 31, 2013 ("first quarter of 2013").

### **Highlights:**

For the first quarters of 2014 and 2013, our revenue, broadcast expense and corporate and administrative expense were as follows:

We are pleased with our operating results for the first quarter of 2014. We experienced period over period increases in total revenue, local advertising, political advertising, retransmission consent and internet revenue, as well as net income and broadcast cash flows.

Although we experienced period over period increases in broadcast and corporate and administrative expenses (excluding depreciation, amortization and gain or loss on disposal of assets), during the first quarter of 2014 we were able to manage broadcast expenses below our estimates. Our corporate and administrative expenses for the first quarter of 2014 were in line with our expectations.

## <u>Comments on Results of Operations for the First Quarter of 2014 Compared to the First Quarter of 2013:</u>

Revenue.

Total revenue increased \$13.1 million, or 17%, to \$91.3 million for the first quarter of 2014 compared to the first quarter of 2013 primarily due to the increases in local advertising revenue and retransmission consent revenue, as well as an expected increase in political advertising revenue. We began providing services to one new full-power station ("KJCT-TV") on October 31, 2013 and began operating additional stations in three new markets (the "Yellowstone Stations") on November 1, 2013 (collectively, the "Acquired Stations"). The Acquired Stations accounted for approximately \$3.4 million of our total revenue in the 2014 three-month period. Retransmission consent revenue increased due to increased retransmission consent rates.

Political advertising revenue increased due to 2014 being the "on year" of the two year election cycle which resulted in increased spending by political candidates, political parties and special interest groups in the first quarter of 2014. Our local advertising revenue continued to increase primarily due to increased spending in an improving economy. Local and national advertising revenue in the first quarter of 2014 benefited from approximately \$3.8 million earned from the broadcast of the 2014 Winter Olympic Games on our fourteen NBC affiliated stations. There was no corresponding Olympic Games advertising revenue during the first quarter of 2013. Local and national advertising revenue included the broadcast of the 2014 Super Bowl on our five FOX channels which earned us approximately \$0.2 million, a decrease of approximately \$0.9 million compared to the broadcast of the 2013 Super Bowl on our then 20 CBS channels that earned us approximately \$1.1 million.

The principal components of our revenue for the first quarter of 2014 compared to the first quarter of 2013 were as follows:

Local advertising revenue increased \$4.6 million, or 10%, to \$51.0 million.

Retransmission consent revenue increased \$6.4 million, or 66%, to \$16.1 million.

National advertising revenue decreased \$0.1 million, or 1%, to \$13.3 million.

Internet advertising revenue increased \$0.3 million, or 6% to \$6.0 million.

Political advertising revenue increased \$2.2 million, or 336%, to \$2.8 million.

Other revenue decreased \$0.3 million, or 14%, to \$2.0 million.

Our five largest local and national advertising categories on a combined local and national basis by customer type, excluding political advertising, demonstrated the following changes during the first quarter of 2014 compared to the first quarter of 2013: automotive increased 11%; medical increased 13%; communications increased 4%; restaurant decreased 21%; and furniture and appliances decreased 3%.

#### Operating expenses.

Broadcast expense (before depreciation, amortization and gain or loss on disposal of assets) increased \$6.9 million, or 13%, to \$60.4 million. This increase was due primarily to increases in non-compensation expense of \$5.3 million and compensation expense of \$1.6 million. The Acquired Stations accounted for approximately \$3.0 million of broadcast expense in the first quarter of 2014. Non-compensation expense increased primarily due to increases in network affiliation fees, programming costs, software license fees and consulting fees, bad debt expense and other professional fees. Compensation expense increased primarily due to increases in salaries, incentive compensation and non-cash stock-based compensation, offset, in part by decreases in healthcare and pension expenses. During the first quarter of 2014 and the first quarter of 2013, we recorded broadcast non-cash stock-based compensation expense of \$0.7 million and \$0.1 million, respectively. Broadcast non-cash stock-based compensation expense increased primarily due to a grant of restricted common stock to certain employees in the 2014 three-month period.

Corporate and administrative expense (before depreciation, amortization and gain or loss on disposal of assets) increased \$2.7 million, or 70%, to \$6.5 million. The increase in corporate and administrative expenses was due primarily to increases in compensation expense of \$1.6 million and non-compensation expense of \$1.1 million. Compensation expense increased primarily due to increases in non-cash stock-based compensation expenses and routine increases in salary expense. Non-compensation expense increased primarily due to increases in legal and other professional fees associated with our pending acquisitions. During the first quarter of 2014 and the first quarter of 2013, we recorded corporate non-cash stock-based compensation expense of \$1.4 million and \$0.1 million, respectively. Non-compensation expense increased primarily due to the grant of restricted stock to certain employees and to our non-employee directors in the 2014 three-month period.

### **Comments on Guidance:**

Second Quarter of 2014.

Based on our current forecasts for the second quarter of 2014, we anticipate the following changes from the three-month period ended June 30, 2013 (the "second quarter of 2013") as outlined below. We began providing services to WQCW-TV, Portsmouth, OH and WOCW-LP, Charleston, WV (collectively, "WQCW-TV") under a local marketing agreement on February 1, 2014 and completed the acquisition of WQCW-TV on April 1, 2014. Our total revenue estimates for the second quarter of 2014 include approximately \$4.7 million of revenue estimated to be contributed collectively by the Acquired Stations and WQCW-TV in the second quarter of 2014.

#### Revenue.

- We believe our second quarter of 2014 local advertising revenue, excluding political advertising revenue, will increase from the second quarter of 2013 by approximately 9% to 10%.
- We expect our second quarter of 2014 national advertising revenue, excluding political advertising revenue, will be approximately equal to or slightly less than the second quarter of 2013
- We anticipate our second quarter of 2014 internet advertising revenue, excluding political advertising revenue, will increase from the second quarter of 2013 by approximately 10% to 12%.
- We believe our second quarter of 2014 retransmission consent revenue will increase from the second quarter of 2013 by approximately 72% to \$16.1 million.

Operating expenses (before depreciation, amortization and gain or loss on disposal of assets, net).

For the second quarter of 2014, we anticipate our broadcast operating expenses will increase from the second quarter of 2013, reflecting anticipated increases in payroll and related employee benefits including a one-time non-cash increase in accrued paid-time-off ("PTO") of \$3.1 million resulting from a change in Gray's employee PTO policy which was effective on April 1, 2014. We anticipate that our broadcast operating expenses will also reflect increases in network fees and national sales commission expense, as well as approximately \$3.5 million of operating expenses incurred collectively by the Acquired Stations and WQCW-TV in the second quarter of 2014.

For the second quarter of 2014, we anticipate our corporate and administrative operating expense will increase from the second quarter of 2013, reflecting anticipated increases in payroll and related employee benefits including a one-time non-cash increase in accrued PTO of \$0.1 million and a decrease in non-cash share-based compensation of \$0.6 million. We also anticipate estimated purchase business combination expense of approximately \$1.0 million which includes legal expenses.

Other

On May 1, 2014, Gray acquired KEVN-TV, Rapid City, SD and a related satellite station. Also, on May 1, 2014, Gray entered into a local marketing agreement under which it began operating KNDX-TV, Bismarck, ND, a related satellite station and two related low power stations. On May 5, 2014, Gray entered into agreements to acquire KTVH-TV, Helena, MT; KBGF-TV, Great Falls, MT and KMTF-TV, Helena, MT. The anticipated acquisition of KMTF-TV is subject to receipt of a "failing station waiver" from the FCC. On June 1, 2014, Gray will begin operating KTVH-TV and KBGF-TV pursuant to a local marketing agreement. Due to the limited impact of KEVN-TV, KNDX-TV, KTVH-TV, KBGF-TV and KMTF-TV on the second quarter of 2014, our estimates of revenue and broadcast expenses for the second quarter of 2014 do not include estimates for these stations.

#### **Non-GAAP Terms**

From time to time, Gray supplements its financial results prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") by disclosing the non-GAAP financial measures Broadcast Cash Flow and Broadcast Cash Flow Less Cash Corporate Expenses. These non-GAAP amounts are used by us to approximate the amount used to calculate a key financial performance covenant contained in our debt agreements. Broadcast Cash Flow is defined as net income plus corporate and administrative expenses, depreciation and amortization (including amortization of intangible assets and program broadcast rights), any loss on disposal of assets, any miscellaneous expense, interest expense, any income tax expense less any gain on disposal of assets, any miscellaneous income, any income tax benefits, payments for program broadcast obligations and network compensation revenue and network payments. Corporate and administrative expenses (excluding depreciation, amortization and non-cash stock-based compensation) are deducted from Broadcast Cash Flow to calculate "Broadcast Cash Flow Less Cash Corporate Expenses." These non-GAAP terms are not defined in GAAP and our definitions may differ from, and therefore not be comparable to, similarly titled measures used by other companies, thereby limiting their usefulness. Such terms are used by management in addition to and in conjunction with results presented in accordance with GAAP and should be considered as supplements to, and not as substitutes for, net income and cash flows reported in accordance with GAAP.

## **Reconciliation:**
