

NEWS RELEASE

Gray Reports Strong First Quarter Benefiting From Growth Strategy

Atlanta, Georgia – May 6, 2022... Gray Television, Inc. ("Gray," "we," "us" or "our") (NYSE: GTN) today announced financial results for the first quarter ended March 31, 2022. Our total revenues of \$827 million were strong as we begin an "on-year" of the two-year political advertising cycle. Importantly, our financial results exceeded our revenue and expense guidance issued for this quarter due in large part to faster than anticipated improvements in the operational performance across nearly all of our recently acquired television stations. In the first quarter of 2022 our core advertising revenue increased by 40%, our retransmission consent revenue increased by 59% and our political advertising revenue increased by 189%.

Due to the significant effect that material transactions have had on our results of our operations, we present the financial information herein consistent with both U.S. Generally Accepted Accounting Principles ("GAAP" or "As Reported Basis") and on a Combined Historical Basis ("CHB"), which incorporates certain historical results of acquired businesses, less the historical results of divested businesses. We also furnish certain other detailed non-GAAP metrics to provide more meaningful period-over-period comparisons to assist the public in its analysis and valuation of the Company. This additional information includes a summary of incremental expenses that were specific to our acquisitions, divestitures, and related financing activities ("Transaction Related Expenses"), non-cash stock-based compensation expenses and certain non-GAAP terms common in our industry. Please refer to the detailed discussion of the foregoing terms and concepts included elsewhere herein.

Summary of Operating Results

<u>As Reported Basis</u> (the respective 2021 periods reflect the "off-year" of the two year political advertising cycle):

- Total revenue was \$827 million, an increase of 52% from the first quarter of 2021.
- Net income attributable to common stockholders was \$49 million, or \$0.52 per fully diluted share, an increase of 88% from the first quarter of 2021. Excluding Transaction Related Expenses and non-cash stock compensation totaling \$8 million, our net income attributable to common stockholders would have been \$55 million.
- Broadcast Cash Flow was \$271 million, an increase of 61% from the first quarter of 2021.
- Adjusted EBITDA was \$251 million, an increase of 64% from the first quarter of 2021.

<u>Combined Historical Basis</u> (the respective 2021 periods reflect the "off-year" of the two year political advertising cycle):

- Revenue was \$827 million, an increase of 10% from the first quarter of 2021.
- Core Advertising Revenue increased by 4% from the first quarter of 2021.
- Broadcast Cash Flow was \$272 million, an increase of 8% from the first quarter of 2021.

Other Key Metrics

• As of March 31, 2022, our Total Leverage Ratio, Net of all Cash, was 5.43 times on a trailing eight-quarter basis, netting our total cash balance of \$247 million and giving effect to all Transaction Related Expenses.

 During the first quarters of 2022 and 2021, we incurred Transaction Related Expenses on an As Reported Basis that included but were not limited to legal and professional fees, severance and incentive compensation and contract termination fees. In addition, we recorded certain non-cash stock-based compensation expenses. These expenses are summarized as follows:

Taxes

- During the first quarter of 2022 and 2021, we did not make any material income tax payments. During 2022, we anticipate making income tax payments (net of refunds) within a range of \$170 million to \$190 million.
- As of March 31, 2022, we have an aggregate of \$324 million of various state operating loss carryforwards, of which we expect that approximately half will be utilized.

Guidance for the Three-Months Ending June 30, 2022

Based on our current forecasts for the quarter ending June 30, 2022, we anticipate the following key financial results, as outlined below in approximate ranges. We present revenue net of agency commissions. We exclude depreciation, amortization and gain/loss on disposal of assets from our estimates of operating expenses.

- Revenue:
 - o Core advertising revenue of \$370 to \$375 million.
 - o Retransmission revenue of \$385 to \$390 million.
 - o Political revenue of \$65 to \$70 million.
 - o Production company revenue of \$10 to \$12 million.
 - o Total revenue of \$846 to \$864 million.
- Operating Expenses:
 - o Broadcasting expenses of \$533 to \$537 million, including retransmission expense of approximately \$226 million and transaction related expenses of approximately \$1 million and non-cash stock-based compensation expense of approximately \$1 million.
 - o Production company expenses of approximately \$12 million.
 - Corporate expenses of \$30 to \$35 million, including transaction related expenses of approximately \$1 million and non-cash stock-based compensation expense of approximately \$5 million.

Effects of Acquisitions and Divestitures on Our Results of Operations and Non-GAAP Terms

From January 1, 2020 through December 31, 2021, we completed several acquisition and divestiture transactions. As more fully described in our Form 10-K to be filed with the Securities and Exchange Commission today and in our prior disclosures, these transactions materially affected our operations. We refer to all television stations acquired or divested from January 1, 2020 through December 31, 2021, as the "Acquisitions".

Due to the significant effect that the Acquisitions have had on our results of operations, and in order to provide more meaningful period over period comparisons, we present herein certain financial information on a Combined Historical Basis (or "CHB"). Combined Historical Basis financial information does not include any adjustments for other events attributable to the Acquisitions unless otherwise described. Certain of the Combined Historical Basis financial information has been derived from, and adjusted based on unaudited, unreviewed financial information prepared by other entities, which Gray cannot independently verify. We cannot assure you that such financial information would not be materially different if such information were audited or reviewed and no assurances can be provided as to the accuracy of such information, or that our actual results would not differ materially from the Combined Historical Basis financial information if the Acquisitions had been completed at the stated date. In addition, the presentation of Combined Historical Basis may not comply with United Stated Generally Accepted Accounting Principles ("GAAP") or the requirements for proforma financial information under Regulation S-X under the Securities Act.

From time to time, we supplement our financial results prepared in accordance with GAAP by disclosing the non-GAAP financial measures Broadcast Cash Flow, Broadcast Cash Flow Less Cash Corporate Expenses, Operating Cash Flow as defined in the Senior Credit Agreement, Free Cash Flow, Adjusted EBITDA and Total Leverage Ratio, Net of All Cash. These non-GAAP amounts are used by us to approximate amounts used to calculate key financial performance covenants contained in our debt agreements and are used with our GAAP data to evaluate our results and liquidity.

We define Broadcast Cash Flow as net income or loss plus loss on early extinguishment of debt, non-cash corporate and administrative expenses, non-cash stock-based compensation, depreciation and amortization (including amortization of intangible assets and program broadcast rights), any loss on disposal of assets, any miscellaneous expense, interest expense, any income tax expense, non-cash 401(k) expense, Broadcast Transactions Related Expenses and broadcast other adjustments less any gain on disposal of assets, any miscellaneous income, any income tax benefits and payments for program broadcast rights.

We define Broadcast Cash Flow Less Cash Corporate Expenses as net income or loss plus loss on early extinguishment of debt, non-cash stock-based compensation, depreciation and amortization (including amortization of intangible assets and program broadcast rights), any loss on disposal of assets, any miscellaneous expense, interest expense, any income tax expense, non-cash 401(k) expense, Transaction Related Expenses and other adjustments less any gain on disposal of assets, any miscellaneous income, any income tax benefits and payments for program broadcast rights.

We define Operating Cash Flow as defined in our Senior Credit Agreement as net income or loss plus loss on early extinguishment of debt, non-cash stock-based compensation, depreciation and amortization (including amortization of intangible assets and program broadcast rights), any loss on disposal of assets, any miscellaneous expense, interest expense, any income tax expense, non-cash 401(k) expense, Transaction Related Expenses, other adjustments, certain pension expenses, synergies and other adjustments less any gain on disposal of assets, any miscellaneous income, any income tax benefits, payments for program broadcast rights, pension income and contributions to pension plans.

Operating Cash Flow as defined in our Senior Credit Agreement gives effect to the revenue and broadcast expenses of all completed acquisitions and divestitures as if they had been acquired or divested, respectively, on April 1, 2020. It also gives effect to certain operating synergies expected from the

acquisitions and related financings and adds back professional fees incurred in completing the acquisitions. Certain of the financial information related to the acquisitions has been derived from, and adjusted based on, unaudited, un-reviewed financial information prepared by other entities, which Gray cannot independently verify. We cannot assure you that such financial information would not be materially different if such information were audited or reviewed and no assurances can be provided as to the accuracy of such information, or that our actual results would not differ materially from this financial information if the acquisitions had been completed on the stated date. In addition, the presentation of Operating Cash Flow as defined in the Senior Credit Agreement and the adjustments to such information, including expected synergies resulting from such transactions, may not comply with GAAP or the requirements for pro forma financial information under Regulation S-X under the Securities Act of 1933.

We define Free Cash Flow as net income or loss, plus loss on early extinguishment of debt, non-cash stock-based compensation, depreciation and amortization (including amortization of intangible assets and program broadcast rights), any loss on disposal of assets, any miscellaneous expense, any income tax expense, non-cash 401(k) expense, Transactions Related Expenses, broadcast other adjustments, certain pension expenses, synergies, other adjustments and amortization of deferred financing costs less any gain on disposal of assets, any miscellaneous income, any income tax benefits, payments for program broadcast rights, pension income, contributions to pension plans, preferred dividends, purchase of property and equipment (net of reimbursements and certain defined purchases) and income taxes paid (net of any refunds received and certain defined payments).

We define Adjusted EBITDA as net income or loss, plus loss on early extinguishment of debt, non-cash stock-based compensation, depreciation and amortization of intangible assets, any loss on disposal of assets, any miscellaneous expense, interest expense, any income tax expense, non-cash 401(k) expense, Transaction Related Expenses less any gain on disposal of assets, any miscellaneous income and any income tax benefits.

Our Total Leverage Ratio, Net of All Cash is determined by dividing our Adjusted Total Indebtedness, Net of All Cash, by our Operating Cash Flow as defined in our Senior Credit Agreement, divided by two. Our Adjusted Total Indebtedness, Net of All Cash, represents the total outstanding principal of our long-term debt, plus certain other obligations as defined in our Senior Credit Agreement, less all cash (excluding restricted cash). Our Operating Cash Flow, as defined in our Senior Credit Agreement, divided by two, represents our average annual Operating Cash Flow as defined in our Senior Credit Agreement for the preceding eight quarters.

We define Transaction Related Expenses as incremental expenses incurred specific to acquisitions and divestitures, including but not limited to legal and professional fees, severance and incentive compensation, and contract termination fees. We present certain line items from our selected operating data, net of Transaction Related Expenses, in order to present a more meaningful comparison between periods of our operating expenses and our results of operations.

These non-GAAP terms are not defined in GAAP and our definitions may differ from, and therefore may not be comparable to, similarly titled measures used by other companies, thereby limiting their usefulness. Such terms are used by management in addition to, and in conjunction with, results presented in accordance with GAAP and should be considered as supplements to, and not as substitutes for, net income and cash flows reported in accordance with GAAP.
