NEWS RELEASE

Gray Reports Operating Results

For the Three Months and Six Months Ended June 30, 2008

Atlanta, Georgia — August 7, 2008... Gray Television, Inc. ("Gray," "we" or "us") (NYSE: GTN) today announced results from operations for the three months (the "second quarter") and six months ended June 30, 2008 as compared to the three months and six months ended June 30, 2007.

Comments on As Reported Results of Operations for the Three Months Ended June 30, 2008:

Revenues.

Total net revenue decreased \$1.0 million, or 1%, to \$78.7 million due primarily to decreased local and national advertising revenues that were partially offset by increased political and internet advertising revenue in the current year. The increase in political advertising revenue reflects increased advertising from political candidates in the 2008 primary and general elections. Increased internet advertising revenue reflects our internet sales initiatives in each of our markets. The decrease in local and national revenue was largely due to a softening economy.

Political advertising revenues increased \$2.3 million, or 88%, to \$5.0 million.

Internet advertising revenue increased \$0.8 million, or 34%, to \$3.0 million.

Local advertising revenue decreased \$2.5 million, or 5%, to \$49.5 million.

National advertising revenue decreased \$1.4 million, or 7%, to \$18.5 million.

Operating expenses.

Broadcast expenses (before depreciation, amortization and loss on disposal of assets) decreased \$0.6 million, or 1%, to \$48.5 million.

Corporate and administrative expenses (before depreciation, amortization and loss on disposal of assets) decreased \$0.9 million, or 24%, to \$2.7 million.

We recorded non-cash stock-based compensation expense during the three months ended June 30, 2008 and 2007 of \$395,000 and \$310,000, respectively.

Comments on Results of Operations for the Six Months Ended June 30, 2008:

Revenues.

Total net revenue increased \$0.3 million to \$149.7 million due primarily to increased political and internet advertising revenue that were partially offset by decreased local and national advertising revenue in the current year. The increase in political advertising revenue reflects increased advertising from political candidates in the 2008 primary and general elections. Increased internet advertising revenue reflects our internet sales initiatives in each of our markets. The decrease in local and national revenue was largely due to a softening economy and due to the change in networks broadcasting the Super Bowl. During the first six months of 2008, we earned approximately \$130,000 of net revenue relating to the 2008 Super Bowl broadcast on our six Fox channels compared to earning approximately \$750,000 of net revenue relating to the 2007 Super Bowl broadcast on our 17 CBS channels during the first six months of 2007.

Political advertising revenues increased \$4.3 million, or 115%, to \$8.0 million.

Internet advertising revenue increased \$1.4 million, or 31%, to \$5.7 million.

4370 Peachtree Road, NE * Atlanta, GA 30319 (404) 504-9828 * Fax (404) 261-9607 Local advertising revenue decreased \$3.5 million, or 4%, to \$95.2 million.

National advertising revenue decreased \$2.1 million, or 6%, to \$34.8 million.

Operating expenses.

Broadcast expenses (before depreciation, amortization and loss on disposal of assets) increased \$0.6 million, or 1%, to \$98.5 million.

Corporate and administrative expenses (before depreciation, amortization and loss on disposal of assets) decreased \$1.4 million, or 18%, to \$6.3 million.

We recorded non-cash stock-based compensation expense during the six months ended June 30, 2008 and 2007 of \$689,000 and \$830,000, respectively.

Internet Initiatives:

We have continued to expand our internet initiatives in each of our markets. Our focus has been to expand local content to attract traffic to our websites.

This strong revenue growth reflects the significantly increased traffic to our websites as illustrated below by the aggregate page views reported by our websites in the three months and six months ended June 30, 2008 compared to the three months and six months ended June 30, 2007.

Three Months Ended June 30,

Total Aggregate Page Views (including video plays and cell phone page views)

We attribute the increase in our website traffic to increased posting of local content and public awareness of our websites as the result of our on-air promotion of our websites.

The aggregate internet revenues discussed above are derived from two sources. The first source is advertising or sponsorship opportunities directly on our websites. We call this "direct internet revenue." The other source is television advertising time purchased by our clients to directly promote their involvement in our websites. We refer to this internet revenue source as "internet related commercial time sales."

Comments on Guidance

Total revenues anticipated for the third quarter of 2008 reflect an incremental increase in political revenues. Local non-political advertising revenue for the third quarter of 2008 is currently anticipated to approximate the results of the three months ended September 30, 2007 (the "third quarter of 2007"). National non-political advertising revenue is currently anticipated to be down approximately 6% to 7% in the third quarter of 2008 compared to the third quarter of 2007. Internet advertising revenue for the third quarter of 2008 is currently anticipated to increase approximately 25% to 35% compared to the third quarter of 2007.

The increase in broadcast operating expenses, before depreciation, amortization and gain on disposal of assets, primarily reflects national sales representative commissions on anticipated political revenue. For the full fiscal year ended December 31, 2008, broadcast operating expenses (before depreciation, amortization and loss on disposal of assets) are currently anticipated to increase approximately 1% compared to the full fiscal year ended December 31, 2007 results. This annual increase primarily reflects national sales representative commissions on anticipated political revenue and severance costs relating to staff reductions at certain television stations.

Changes in the classification of certain items:

The classification of certain prior year amounts in the accompanying consolidated financial statements have been changed in order to conform to the current year presentation.

In our previous disclosures, we had included internet advertising revenue with local advertising revenue and retransmission consent revenue was included with production and other revenue. We are now presenting

Non-GAAP Terms

This press release includes the non-GAAP financial measure of Broadcast Cash Flow and Broadcast Cash Flow Less Cash Corporate Expenses. These non-GAAP amounts are used by us to approximate the amount used to calculate a key financial performance covenant as defined in our senior credit facility. Broadcast Cash Flow is defined as operating income, plus corporate expense, depreciation and amortization (including amortization of program broadcast rights), non-cash compensation and (gain) loss on disposal of assets and cash payments received or receivable under network affiliation agreements, less payments for program broadcast obligations, less network compensation revenue and less income (loss) from discontinued operations, net of income taxes. Corporate expenses (excluding depreciation, amortization and non-cash stock-based compensation) are deducted from Broadcast Cash Flow to calculate "Broadcast Cash Flow Less Cash Corporate Expenses." These non-GAAP terms are used in addition to and in conjunction with results presented in accordance with GAAP and should be considered as supplements to, and not as substitutes for, net loss calculated in accordance with GAAP.
