

Gray Reports Second Quarter Operating Results

August 6, 2020

ATLANTA, Aug. 06, 2020 (GLOBE NEWSWIRE) -- **Gray Television, Inc.** (“Gray,” “we,” “us” or “our”) (NYSE: GTN) today announced financial results for the second quarter ended June 30, 2020. The impact of the novel coronavirus and its disease (collectively, “COVID-19”) on economic activity significantly impacted our revenues and results for the second quarter and first half of 2020. Nevertheless, despite these macroeconomic challenges, over the first half of this year, we increased our cash on hand by \$167 million and repurchased \$49 million of our common stock. Key financial results are as follows:

- Our revenue for the second quarter of 2020 was \$451 million, a decrease of \$57 million, or 11%, from the second quarter of 2019. The primary components of revenue were: combined local and national broadcast advertising revenue of \$198 million, political advertising revenue of \$21 million, and retransmission revenue of \$220 million.
- Net loss attributable to common stockholders for the second quarter of 2020 was \$2 million, or (\$0.02) per share.
- Broadcast Cash Flow was \$123 million for the second quarter of 2020, decreasing \$62 million, or 34%, from the second quarter of 2019. Our Adjusted EBITDA for the second quarter of 2020 was \$108 million, decreasing \$60 million, or 36%, from the second quarter of 2019.
- As anticipated, Covid-19 had an adverse impact upon our business in the second quarter of 2020, although the impact was noticeably less severe than we had anticipated at the time of our prior earnings release. In particular, while our total revenue declined by 11%, our combined local and national broadcast revenue, excluding political revenue (“Total Core Revenue”), for the second quarter 2020 only decreased by approximately 30% compared to the second quarter of 2019. In addition, the year-over-year declines in Total Core Revenue improved sequentially through the second quarter of 2020 as follows: April declined 38%, May declined 34% and June declined by only 17%. Our total revenue performed better in the second quarter than our Total Core Revenue on a year-over-year basis, because of continuing growth of retransmission consent revenue and political advertising revenue in the current “on-year” of the two-year political advertising cycle.
- As of June 30, 2020, our total leverage ratio, as defined in our senior credit facility, was 4.40 times on a trailing eight-quarter basis, netting our total cash balance of \$379 million and giving effect to all Transaction Related Expenses (as defined below). We have not drawn any funding from our \$200 million revolving credit facility, and, as a result, we are not subject to any maintenance covenants in our credit facilities at this time.
- During the second quarter of 2020, we repurchased approximately 3.3 million shares of our common stock at an average price of \$13.02 per share, including commissions, for a total cost of approximately \$43.4 million. During the first half of 2020, we repurchased approximately 3.8 million shares of our common stock on the open market at an average price of \$12.81 per share, including commissions, for a total cost of approximately \$49.2 million. We have not repurchased any shares since the close of the second quarter. Currently we have approximately 89,740,619 common shares and 7,048,006 Class A common shares outstanding, and we currently have approximately \$80 million remaining under our stock repurchase authorization adopted in November 2019.

Government and private measures adopted to limit the spread of COVID-19 have affected, and are continuing to affect, our businesses in a number of ways. Although there has recently been a gradual decline in certain government and private measures adopted to limit the spread of COVID-19, we have generally experienced a reduction in demand for advertising across our television stations and digital platforms, a very significant reduction in demand in the market for the video production of sporting and other events by our production companies, and reductions in the supply of programming, especially sports content, provided by television networks. The extent to which some of the effects of the COVID-19 crisis continues to impact our business depends on numerous evolving factors; we believe, however, that some of our programming and production activities are beginning to rebound. Despite the adverse developments, we have experienced significant increases in viewership of our local newscasts and related digital assets. We did not access any stimulus or relief grants or loans from any governmental unit during the first half of 2020.

The net impact of these factors has had an adverse effect on our financial and operational results during the past four months. The ultimate duration and impact of these disruptions cannot be predicted at this time. In light of this uncertainty, the Company cannot provide guidance for the three-month period ending on September 30, 2020, or calendar year 2020. Notwithstanding the foregoing, however, we continue to anticipate that in calendar year 2020, our political advertising revenue will be between \$250 million to \$275 million and the Company will remain free cash flow positive.

Transaction Related Expenses

From time to time, we have incurred incremental expenses ("Transaction Related Expenses") that were specific to acquisitions, divestitures and financing activities, including but not limited to legal and professional fees, severance and incentive compensation and contract termination fees. In addition, we have recorded certain non-cash stock-based compensation expenses. These expenses are summarized as follows (in millions):

Three Months Ended June 30,		Six Months Ended June 30,	
2020	2019	2020	2019

Transaction Related Expenses:

Total non-cash stock-based compensation	<u>\$ 3</u>	<u>\$ 2</u>	<u>\$ 7</u>	<u>\$ 5</u>
---	-------------	-------------	-------------	-------------

Taxes

During the 2020 and 2019 six-month periods, we made aggregate federal and state income tax payments of approximately \$1 million and \$8 million, respectively. During the remainder of 2020, we anticipate making income tax payments (net of refunds) of approximately \$57 million. We have approximately \$438 million of federal operating loss carryforwards, which expire during the years 2023 through 2037. We expect to have federal taxable income in the carryforward periods. We therefore believe that these federal operating loss carryforwards will be fully utilized. Additionally, we have an aggregate of approximately \$677 million of various state operating loss carryforwards, of which we expect that approximately half will be utilized. On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (the "CARES Act") was enacted in response to the COVID-19 pandemic. We are currently evaluating the impact of the CARES Act, but we do not believe it will have a material effect on our estimated effective tax rate.

The Company

We are a television broadcast company headquartered in Atlanta, Georgia, that is the largest owner of top-rated local television stations and digital assets in the United States ("U.S."). Gray currently owns and/or operates television stations and leading digital properties in 94 television markets that collectively reach approximately 24 percent of U.S. television households. Over calendar year 2019, Gray's stations were ranked first in 69 markets, and first and/or second in 87 markets, as calculated by Comscore, Inc.'s audience measurement service. We also own video program production, marketing, and digital businesses including Raycom Sports, Tupelo-Raycom, and RTM Studios, the producer of PowerNation programs and content, which we refer to collectively as our "production companies."

Cautionary Statements for Purposes of the "Safe Harbor" Provisions of the Private Securities Litigation Reform Act

This press release contains statements that constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995 and the federal securities laws. These "forward-looking statements" are not statements of historical facts, and may include, among other things, statements regarding our current expectations and beliefs of operating results for future periods, future income tax payments and other future events. Actual results are subject to a number of risks and uncertainties and may differ materially from the current expectations and beliefs discussed in this press release. All information set forth in this release is as of the date hereof. We do not intend, and undertake no duty, to update this information to reflect future events or circumstances. Information about certain potential factors that could affect our business and financial results and cause actual results to differ materially from those expressed or implied in any forward-looking statements are included under the captions "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations," in our Annual Report on Form 10-K for the year ended December 31, 2019, and may be contained in reports subsequently filed with the U.S. Securities and Exchange Commission (the "SEC") and available at the SEC's website at www.sec.gov.

Conference Call Information

We will host a conference call to discuss our second quarter operating results on August 6, 2020. The call will begin at 10:00 AM Eastern Time. The live dial-in number is 1(855) 493-3489 and the confirmation code is 6748868. The call will be webcast live and available for replay at www.gray.tv. The taped replay of the conference call will be available at 1(855) 859-2056, Confirmation Code: 6748868 until September 6, 2020.

Effects of Acquisitions and Divestitures on Our Results of Operations and Non-GAAP Terms

From time to time, Gray supplements its financial results prepared in accordance with GAAP by disclosing the non-GAAP financial measures Broadcast Cash Flow, Broadcast Cash Flow Less Cash Corporate Expenses, Operating Cash Flow as defined in the Senior Credit Agreement, Free Cash Flow, Adjusted EBITDA and Total Leverage Ratio, Net of All Cash. These non-GAAP amounts are used by us to approximate amounts used to calculate key financial performance covenants contained in our debt agreements and are used with our GAAP data to evaluate our results and liquidity.

We define Broadcast Cash Flow as net income or loss plus loss from early extinguishment of debt, non-cash corporate and administrative expenses, non-cash stock-based compensation, depreciation and amortization (including amortization of intangible assets and program broadcast rights), any loss on disposal of assets, any miscellaneous expense, interest expense, any income tax expense, non-cash 401(k) expense, Broadcast Transactions Related Expenses and broadcast other adjustments less any gain on disposal of assets, any miscellaneous income, any income tax benefits and payments for program broadcast rights.

We define Broadcast Cash Flow Less Cash Corporate Expenses as net income or loss plus loss from early extinguishment of debt, non-cash stock-based compensation, depreciation and amortization (including amortization of intangible assets and program broadcast rights), any loss on disposal of assets, any miscellaneous expense, interest expense, any income tax expense, non-cash 401(k) expense, Transaction Related Expenses and other adjustments less any gain on disposal of assets, any miscellaneous income, any income tax benefits and payments for program broadcast rights.

We define Operating Cash Flow as defined in our Senior Credit Agreement as net income or loss plus loss from early extinguishment of debt, non-cash stock-based compensation, depreciation and amortization (including amortization of intangible assets and program broadcast rights), any loss on disposal of assets, any miscellaneous expense, interest expense, any income tax expense, non-cash 401(k) expense, Transaction Related Expenses, other adjustments, certain pension expenses, synergies and other adjustments less any gain on disposal of assets, any miscellaneous income, any income tax benefits, payments for program broadcast rights, pension income and contributions to pension plans.

Operating Cash Flow as defined in our Senior Credit Agreement gives effect to the revenue and broadcast expenses of all completed acquisitions and divestitures as if they had been acquired or divested, respectively, on June 30, 2018. It also gives effect to certain operating synergies expected from the acquisitions and related financings and adds back professional fees incurred in completing the acquisitions. Certain of the financial information related to the acquisitions has been derived from, and adjusted based on, unaudited, un-reviewed financial information prepared by other entities, which Gray cannot independently verify. We cannot assure you that such financial information would not be materially different if such information were audited or reviewed and no assurances can be provided as to the accuracy of such information, or that our actual results would not differ materially from this financial information if the Acquisitions had been completed on the stated date. In addition, the presentation of Operating Cash Flow as defined in the Senior Credit Agreement and the adjustments to such information, including expected synergies resulting from such transactions, may not comply with GAAP or the requirements for pro forma financial information under Regulation S-X under the Securities Act of 1933.

We define Free Cash Flow as net income or loss plus loss from early extinguishment of debt, non-cash stock-based compensation, depreciation and amortization (including amortization of intangible assets and program broadcast rights), any loss on disposal of assets, any miscellaneous expense, any income tax expense, non-cash 401(k) expense, Transactions Related Expenses, broadcast other adjustments, certain pension expenses, synergies, other adjustments and amortization of deferred financing costs less any gain on disposal of assets, any miscellaneous income, any income tax benefits, payments for program broadcast rights, pension income, contributions to pension plans, preferred dividends, purchase of property and equipment (net of reimbursements) and income taxes paid (net of any refunds received).

We define Adjusted EBITDA as net income or loss, plus loss from early extinguishment of debt, non-cash stock-based compensation, depreciation and amortization of intangible assets, any loss on disposal of assets, any miscellaneous expense, interest expense, any income tax expense, non-cash 401(k) expense, Transaction Related Expenses less any gain on disposal of assets, any miscellaneous income and any income tax benefits.

Our Total Leverage Ratio, Net of All Cash is determined by dividing our Adjusted Total Indebtedness, Net of All Cash, by our Operating Cash Flow as defined in our Senior Credit Agreement, divided by two. Our Adjusted Total Indebtedness, Net of All Cash, represents the total outstanding principal of our long-term debt, plus certain other obligations as defined in our Senior Credit Agreement, less all cash (excluding restricted cash). Our Operating Cash Flow, as defined in our Senior Credit Agreement, divided by two, represents our average annual Operating Cash Flow as defined in our Senior Credit Agreement for the preceding eight quarters.

We define Transaction Related Expenses as incremental expenses incurred specific to acquisitions and divestitures, including, but not limited to legal and professional fees, severance and incentive compensation, and contract termination fees. We present certain line-items from our selected operating data, net of Transaction Related Expenses, in order to present a more meaningful comparison between periods of our operating expenses and our results of operations.

These non-GAAP terms are not defined in GAAP and our definitions may differ from, and therefore may not be comparable to, similarly titled measures used by other companies, thereby limiting their usefulness. Such terms are used by management in addition to, and in conjunction with, results presented in accordance with GAAP and should be considered as supplements to, and not as substitutes for, net income and cash flows reported in accordance with GAAP.
